Every time you buy a healthy meal at Akershus, Østfold and Lovisenberg hospitals, you help an Ethiopian school child in need of a hot meal. TABLE FOR TWO (TFT) works. It helps people choose healthy food, it helps children stay in school and get an education. TFT is not about making people feel good, it's about changing children's lives, it's about helping children stay in school. TFT schools have improved attendance dramatically, and school results have improved. Wouldn't you send your child to a TFT school, if you knew the school provided your child a healthy warm meal?
