**A Message From TABLE FOR TWO Executive Director Masa Kogure**

The United Nations General Assembly was held in New York, where leaders from around the world gathered to discuss global issues.

Nutrition was again on the agenda, with various new initiatives to tackle food security. U.S. Secretary of State Hillary Clinton highlighted the key role that civil society plays.

At TFT, we work hard each day to provide a platform to allow as many people as possible to contribute to this global challenge within our daily lives.

## Africa

11-13) Our partners at the Millennium Villages Project sent us pictures and updates from Ruhira, Uganda, where TFT supports school meal programs in 21 schools, reaching more than 10,000 students. In an effort to make the meal programs sustainable, school gardens and woodlots are being developed. Not only will these initiatives supplement the provision of meals, but they also serve as income-generating opportunities for the schools. In addition, two schools now have cows, which provide much needed nutritional variety.
